The Source of Synergy Foundation

recognizes that our essence is **Source**: a single, universal field out of which everything emerges, where we are united as one.

From this place we create opportunities for **Synergy** that spirals out creating, expanding and deepening connectivity and synergistic engagement.

Our **Foundation** is built upon exploring, utilizing and awakening to our innate qualities and capacities as conscious, evolving expressions of the Source of all that is, all that was and all that ever will be.

The Power of Synergy holds

the key to one of the most potent emergent forces in the Cosmos: the capacity of the collective human spirit to usher in the change we wish to see.

Synergy is energy that expands through cooperation. We recognize that when individuals, organizations, communities and nations come together in a shared sense of responsibility for the common good our collective efforts have a far greater effect on the whole.

The Source of Synergy Foundation

creates opportunities for Synergy as the Source of all our activities, including the Evolutionary Leaders project, Synergy Circles and Journeys to Bear Witness to Global Challenges and Achievements. Our upcoming journey to Greenland will focus on deep witnessing the effects of Climate Change in order to inspire individual and collective action.

We are committed to amplifying and accelerating these synergistic opportunities over the coming decades. Thank you for investing in the **Power of Synergy** by supporting the Source of Synergy Foundation on our 10th Anniversary!

With love and gratitude,

The Source of Synergy Foundation
